WHY GO VIRTUAL

The COVID-19 pandemic has not only affected the event industries but also the researchers, PhD's and all educational platforms. By all means of technologies being handy, let us all fight against this pandemic situation by Staying home and by going Virtual. Virtual conferences are more than just a temporary solution in the face of a global pandemic, they are quickly becoming an accessible go-to for all sorts of audiences. As remote work and online socializing grow, so too do the benefits of virtual conferences.
